

# Meet **SYNERGY** and **Sherry!**

@ *Mystic Candles & Metaphysical*

**6546 E. 22nd St. Tucson, AZ - just east of Wilmot**

## **This is your opportunity to experience a genuine ancient crystal skull!**

Guardian *Sherry Whitfield* and the verified Ancient Crystal Skull *Synergy* will share wonderfully transforming *ancient* energies in a evening that will offer everyone the opportunity to experience *Synergy's* energy and to remember. "Native legends speak of crystal skulls as an inheritance from ancient times. Said to "talk and sing" they are believed to carry messages for all mankind, including what may be discovered when we overcome our fear of death. The first layer of working with any skull, including *Synergy*, is 'to remember.' What you are called to remember is who you really are. It's so easy to get caught up in the little daily things and forget that each life is short and sweet, even with the difficulties. The real you is a Being of Light. You are a Spiritual Being, inhabiting a physical body. *Remember...*" ---Sherry Whitfield

***This evening will start with a short drumming circle. Bring a drum or rattle if you like!***
